Large Railroad Forgeries.

NEW YORK, August 31.—The police secured intelligence from Norton, who was arrested some time since in that city for operating on forged certificates of the stock of the Philadelphia & Reading Railroad Company, that a number of shrewd operators had been working on forged Railroad stock to an alarming extent, and that they were in league with well known engrossers of certificates. Of this all brokers were warned, but this afternoon showed that the warning was not heeded. A rumor was sprung by Alcott & Co., of Broad street, who had purchased a $1,000 dollar bond an issue of the New York Central Railroad, from a man calling himself Leonard Brown, carrying on business at No 113 Broadway.

To-day Brown called on Alcott & Co., and wanted a loan on sixteen similar bonds. It was found genuine. The bond first purchased was similar in number to one of the bonds of the sixteen on which a loan was desired. An examination was made and a discovery was made that the sixteen bonds were forgeries. The detectives then ascertained that Wooden Sherman, of No. 9, Nassau street, was endeavoring to negotiate a loan of $25,000 on $30,000 worth of the New York Central R. R. Stock of the consolidated issue with Thos. Denny & Co., of Wall street, for Mr. Brown. A detective at Sherman's saw Brown who appeared impassionate, and was walking up and down the office.

Mr. Sherman entered directly and handing Brown a bond told him he could not do business to-day. Brown left and was arrested by the detective who found on him eight forged thousand dollar bonds of the New York Central Railroad of consolidated stock, and recovered two similar bonds which had been left for negotiation with Eddy & Co., No. 26 Pine street. Brown was taken to the Central office and locked up. A detective succeeded in recovering sixty-two forged bonds on Brown from two firms, the names of which are kept secret. The police say there are a million dollars of forged bonds ready to flood Wall street, and that two hundred and fifty thousand dollars worth have already been placed on the market. Astounding developments are looked for to-morrow. The public are cautioned to critically examine the following stock: New York Central Railroad sixes; 1883 sixes; 1887 sixes; 1876 Buffalo, New York and Erie.

Miscellaneous Items.

NOON DISPATCHES.

More of the Bond Forgeries.

NEW YORK, Sept. 1st.—The *post mortem* examination of the body of an English emigrant named Edwards, who was reported to have died from asiatic cholera, showed the man to have died of typhoid fever.

The principal operator in the New York Central bond forgeries is one Charles J. Williamson, who is believed to be identified with the notorious Rose and Wright. He appears to have been dealing through various brokers to a very great extent, principally in New York Central sixes of 1887, New York Central sixes of 1883, and Buffalo, New York and Erie first mortgage bonds. Williamson is an outside man, and whether all these bonds just mentioned are forgeries or not or merely covers by which he was enabled to issue the forged bonds it is impossible to tell. The detectives think it advisable for any persons who have bought any of the classes of bonds just mentioned since the date of last interest payment, to have them examined at the several offices of the company to have their genuiness attested.

It is reported in Wall street that a certain bank has been victimized to the extent of half a million of dollars with these forged bonds, and it is further reported that the arrest of several prominent operators in Wall street may be shortly looked for with reference to this worthless paper.

Since the arrest of Brown a large quantity of the bogus bonds have been discovered, as follows: Found on the person of the prisoner, $30,000; found with one firm on Broadway $30,000; with another firm on Broadway $32,000, making in all $92,000.

It was rumored last night that other stocks had been counterfeited and that business will be partially suspended in Wall street to-morrow, till the the truth is known.

Williamson has the *alias* of H. H. Willis, and is said to have been discharged years ago from the position of bookkeeper to Brooks Brothers for peculations and forgery. Every effort is being made to secure his arrest.

Miscellaneous News.

READING, PA., September 1.—A boat with two men and a woman went over the falls of the Schuylkill, near Kissenton. The bridge man escaped. It is supposed the drowned man rowed over the falls purposely, the motive unknown. He had had a difficulty with the drowned woman at a beer garden.

The Official Report On the Wawasset Disaster.

WASHINGTON, Sept. 1.—The Inspectors of steamboats have made public the official report of the Wawasset disaster. They recommend the prosecution of the Potomac Ferry company and the Captain and mate and suspended the engineer. The charges against the Ferry Company are for carrying more passengers than allowed and the employment of officers who did not bear certificates. The charges against the Captain and mate are for accepting places without proper documents and want of discretion is generally charged and and undue anxiety on the part of them to save the boat instead of the passengers. The Secretary has referred the report to the Solicitor General for his action with a view of the prosecution of the alleged culprits.

MIDNIGHT DISPATCHES.

A Man Kills his Sister and Nephew, Kills Himself and Sets Fire to his House--Horse Thieves Hanged by a Mob.--The Italians Petitioning Congress for Grievances.

ST. LOUIS, September 1.—A special to the *Republican* from Sedalia, Mo., gives an account of a terrible tragedy which occurred at Knightlie's Station, on the Missouri, Kansas and Texas Railroad, six miles west of Sedalia, on Saturday last. It appears that Knightly, who had been laboring in mental derangement for some time, killed or caused the death of his sister Adelia, aged 40 years, and his nephew Louis Stobbs, set fire to his house, and then killed himself. The house, was in an isolated situation, and when the neighbors reached it, it was a mass of ruins. The charred remains of Knightly was found near the window, with a partly burned shot gun at his feet, and the bodies of his sister and nephew near the front door, but were so badly charred that it could not be determined whether they had been killed by Knightly or were suffocated. A Coroner's jury inclined to the latter opinion, although the neighbors testified to having heard three shots fired while the house was burning.

The same special says that two horse thieves were hanged by a mob in Benton county Saturday, and another of the same gang had been arrested and is now in jail at Sedalia.

Superintendent Joseph Widen, one of the victims of the explosion of the steamer Geo. C. Wolff, died yesterday.

A Convention of the Italian societies was in session here last week. They adopted a petition to Congress asking that body to effectually suppress the trafic in Italian children which has been carried on so long by padrones, and which is so shameful in character.

Vice Admiral Yelverton and the Cartagena Insurgents—A Probable Difficulty between the Cartagenans and the British Authorities.

LONDON, September 1.—The *Times* of this morning publishes further particulars of the negotiations between the British Vice Admiral Yelverton and the Cartagena insurgents in regard to the removal of the Spanish iron clads Almanza and Victoria.

Upon notice from the Admiral of his intention to take the vessels, the insurgents answered that the forts would fire upon the British squadron if the attempt was made. This was on the 28th. The ram Numancia was brought to anchor at the entrance of Escombrera bay, within range of the Lord Walden, the British flagship, and the two vessels lay with their broadsides towards each other. The Lord Walden carries eighteen guns and is iron-plated screw steamer of four thousand and eighty tons.

The Numancia is an iron-clad steamer and carries forty 68-pounders. On the 29th Vice Admiral Yelverton replied that he would allow forty hours for reconsideration, at the expiration of which time he would take the vessels.

On the 20th, Senor Aquillas communicated to Vice-Admiral Yelverton the hope of the Junta that the affair might be amicably arranged.

No later intelligence has been received from Cartagena, but it is believed that they will propose a compromise by which they should consent to the removal of the Almanza and Victoria, on the condition that they be held at Gibraltar, under the guarantee from the British commander not to surrender them to the Spanish authorities until the differences between Madrid Government and the Junta of Cartagena is settled. There is little doubt that the insurgents will attack the British fleet if they attempt to remoae Spanish vessels without coming to some agreement.

Foreign Intelligence--The Movements of the Carlist's Troops—Colliery Explosion.

BAYONE, Sept. 1.—The Carlist troops entered the town of Cantavizi, threatening Caspe, the province of Saragossa, which is garrisoned by a small body of Republican troops.

The Carlists claim that desertions from the Republican ranks are very frequent, and most of the the deserters take service for Don Carlos.

MADRID, Sept. 1.—Rear Admiral Alden has gone to Barcelona in the flagship Wabash.

The English residents have all fled from Cartagena in anticipation of an attack from General Campas upon the insurgents. The provisions of the rebels in town is nearly exhausted and the men are marauding in the shops and private houses to obtain food. Among the many reports circulated concerning the intentions of Don Carlos in the event of his success, is one that he has promised the Priests to re-establish inquisition.

SWANZA, Sept. 1.—Colliery explosion this morning killed five men.

The Bond Forgery in New York--Leonard Brown Arraigned.

NEW YORK, Sept. 1.—Leonard Brown, who, on Saturday, endeavored to procure a negotiation of $30,000 worth of forged New York Central Railroad bonds, was arraigned at the Tombs Police Court this afternoon. Wooster Sherman said he received bonds from Brown to negotiate, and he only knew Brown from the Friday previous. Holdsook, of the firm of Eudy & Co., pronounced bond 104 submitted to him an undoubted forgery.

Trouble in the Camp of the Cartagena Insurgents.

MADRID, Sept. 1.—The members of the Insurgent Junta at Cartagena already reported as arrested by Galvez, one of their colleagues, are one Sanvalle, the Insurgent Minister of France, and General Contreras, the President of the Junta. The latter was quickly released. The cause of his arrest is not known. Sanvalle was charged by Galvez with treachery to the Junta in having altered and falsified communication of vice Admiral Yelverton to the Junta. It seems that in the beginning of the affair with the British commander, Sanvalles was named by the Junta to carry on the negotiations on their behalf.

A Dangerous Legal Tender Counterfeit.

WASHINGTON, September 1.—The Treasury has discovered the existence of a very dangerous counterfeit of the five hundred legal tender note last series 1869, so perfect in its execution that Treasurer Spinner declares it is calculated to deceive even the most practised experts. The note was forwarded here by the assistant treasurer, at New York, who suspected, but forwarded it to the Treasurer for examination by the experts of the Department. The differences between the counterfeit and the genuine issue will be given for publication to-morrow.

The Steamer Ironside Wrecked.

FORT MONROE, September 1.—The Steamer Ironside, belonging to the Potomac Steamboat Company, which has been running between Baltimore and Wilmington, went ashore on Hog Island shoals last Friday night during a thick easterly gale and rain storm, and has gone to pieces. The crew was taken off.

Cholera at Wheeling.

WHEELING, W. V., September 1.—There have been three deaths from cholera here since Saturday.

A Farmer's Encounter with a Highwayman.

The Buchanan (Michigan) *Record* says: "As George Spicer, of Three Oaks, was on his return home from Buchanan, after crossing the high railway bridge a few miles west of Buchanan, a man came out of the woods, caught the team, and told Mr. Spicer that he wanted that team. He was informed that he could not have it, whereupon he said he was in earnest and must have it. Mr. Spicer struck the team with the whip, but the grip of the miscreant was too firmly fastened on the horses bridle. Seeing things getting serious, Mr. Spicer concluded there was no need of any further delay, and thereupon drew his revolver and fired at the robber, at the same time striking the horses with the whip. Whether he hit him or not he could not tell, but he seemed to fall back as the horses sprang forward, released from his grasp. After going a short distance Mr. S. concluded he would go back and see how badly he had hurt his man, but as he was stopping a shrill whistle greeted his ears ahead of him in the woods. He therefore concluded there were others about and that it was no place for him there. So, putting whip to the team he hurried forward through the woods, when several shots were fired at him, one taking effect in the buggy-box, passing under the seat, and the ball lodging therein. It is hoped that the man that caught the team was seriously hurt by the shot given him, better still if he was killed. However, if he was either hurt or even killed, his comrades in crime of course took care of him, and the public would never know anything about it.

THE SMASHED PIER.—The extraordinary smashing of a new stone pier, at New York, Wednesday, by the steamship City of Limerick, when moving at the rate of a mile and a half an hour, is referred to by the *Herald* as follows:

"Hardly an impression was made upon the vessel and not a passenger on board felt the collision. Yet seventy-five feet of the dock, it is reported, has been so badly crushed that the work will have to be done over again. The damage is estimated at $10,000. Not only was every block of coping either displaced or cracked, but even the several courses underneath were severed. This would seem to be incredible if not actually seen. What sort of engineering and work must be there? Evidently a thorough investigation into both the engineering and quality of the work is needed. We have been disposed to boast of the new pier and the general improvement at the Battery, so well did it appear, and have urged the vigorous posecution of like improvements along the front of our rivers; but if such feeble work is executed it will be necessary to reorganize the department of docks and to subject every foot constructed to a rigid scientific inspection."

LOCAL BRIEFS—

Yesterday was the City Collector's last day of grace.

The County Board of Education will be in session on Monday next.

The cotton rust is making its appearance on the farms near this city.

The Penitentiary Board of Directors will meet in session at that Institution to-day.

The new bridge over Crabtree Creek, known as Manly bridge, will be completed in about two weeks.

We are pleased to hear of the convalescence of J. B. Martin, the book keeper of the Treasury department.

Governor Caldwell returned to the city on the 1 o'clock Western train yesterday morning, much improved in health and appearance.

The regular passenger train on the North Carolina Railroad was delayed six hours Monday morning, owing to a broken wheel of the engine.

Since the administration of Major W. H. Bagley, Grand Master of Odd Fellows of North Carolina, five new lodges have been organized in the State.

Smith, the great North American House Movist, will put the old post office in motion to-day. Business, however, will not be suspended in consequence of the moving.

Rev. A. W. Mangum, the popular pastor of the Edenton Street Methodist Episcopal Church, is enjoying a few days of well earned recreation at the Piedmont Springs in Western Carolina.

Several of the standard fiction works in the State Library, Dickens and others are incomplete, the volumes being either lost or never there. The proper authorities should remedy the evil.

From an Eastern Carolina farmer we learn that the rust has already attacked the cotton in that section, and serious apprehensions are entertained that it will prove highly injurious to the prospects.

A. J. Partin, Esq., formerly manager of the National Hotel, has formed a business connection with Alcott, the Fayetteville Street Grocer, forming a valuable accession to this excellent house.

Albert Johnson, Esq., one of the City Commissioners of Raleigh, an old man but in excellent preservation, came to this city by the first trip of the first railroad train that ever entered the city.

Miss A. M. Clewell, a young lady of Salem, N. C., and a graduate of the Salem Female School, passed through the city Saturday *en route* to Oxford to take a position as teacher in the Orphan Asylum.

Syme, our associate localizer and news editor, is still confined to his room. He has a sore head and had his bushy hair cut off, close up. We don't blame him for staying in doors till that hair comes out. Oh! he looks awful.

The grand stand of the new fair grounds can be seen in this city from the yard of Mrs. Ellen Mordecai plainly, and it can be furthermore seen that the stand is exactly on a level with the dome of the capitol, making it the highest point in Wake county.

Chief of Police King found a tin box between Salisbury and Fayetteville streets yesterday morning, which had recently been prized open on one side. It was still locked, and no doubt some thief had taken its contents and thrown the box away. The box was marked L. Hinton, and may be found at police headquarters.

Major D. G. McCoy, of Fayetteville, arrived in the city yesterday morning, and brings us very good news from Tokay. Friend Horne will convert his entire crop of grapes (85 acres) into wine. He has on hand now about 100 hogsheads. Orders from the North are coming in daily, showing that this excellent wine is becoming generally popular.

POLICE ITEMS.—Saturday night, as usual, drunkness and disorder reigned supreme in certain localities, and the police overhauled about a dozen offenders, who were accommodated to quarters in the guard house, which became for the time being a small-sized bedlam, but better here than on the streets. The offenders were pretty much the same old crew whose names appear too often in our reports and therefore we will not give them space.

Sunday was remarkably quiet. No disorders of any character reported. The same may be said of yesterday.

He returned to his place of business yesterday—we mean Mr. Wm. H. Harp's carriage factory in this city. He has been for some time past at Louisburg engaged in completing a cotton picking invention which is destined to revolutionize this branch of the farming world. It is useless for any one to call to see it, as it is not to be unveiled until the Fair. Mr. O. R. Smith is connected with Mr. Ferguson in this invention.

CALLED MEETING OF THE CITY COMMISSIONERS.—A called meeting of the city commissioners was held in the Mayor's office yesterday evening at 4 o'clock. Present, Mayor Whitaker presiding: Messrs. Battle, Clawson, Ellison, Jones and Ricks.

Col. Samuel T. Carrow, at whose instance the meeting was called, stated, as government agent for the building of the Postoffice, that it was necessary to occupy a portion of the recent land belonging to the county, and to use some of the dirt of the same in the erection of the building, and offered the dirt taken from the excavations for the building to the city and asked that the City Commissioners assist him in petitioning the Board of County Commissioners to cede him the land required, which is a part of Court Square.

On motion of Mr. Battle, the Mayor, on behalf of the Commissioners, petitioned the Board of County Commissioners to cede to the United States Government the grant of land necessary for the public building and also that the offer of the dirt from the excavations be referred to select Committee with power to act.

There being no other business, the Board adjourned.

Adjourned.

OFF FOR THE NORTH—A NEW FIRM.—Maj. R. E. Petty, of the late firm of Primrose, Petty and Newsom, left this morning for New York city, where he will lay in a large stock of Fall and Winter dry goods, boots, shoes, hats, &c., for the new firm of Petty & Jones, who will do business at the old stand of Primrose, Petty & Newsom.

Messrs. Petty & Jones are having their store-room repaired and improved for the new business, and they will soon furnish it with one of the most attractive stocks of goods ever brought to this market.

Maj. R. E. Petty, the popular senior member, is so well and favorably known to this community, and so universally esteemed, that any commendation at our hands is superfluous. Mr. Norman Jones, the junior member, is lately from Granville county, and is a gentleman of character, intelligence and business qualifications.

We take pleasure in recommending this new firm as eminently worthy of public patronage.

FATAL ACCIDENT—A MUTE KILLED BY A TRAIN.—We learn that yesterday about 6¼ o'clock, as the Eastern bound train over the North Carolina Road was nearing Auburn, eight miles from this city, the engineer discovered a man on the track ahead of him, and immediately blew down brakes. The train was several hours behind time, and the engineer, though continuing to blow his alarm whistle, proceeded ahead at a good pace, thinking the man would step off the track before the train reached him. Unfortunately, however, it proved that the man was deaf and dumb, which fact the engineer discovered too late to stop his train, and he was struck by the cow-catcher and killed. We did not learn the name of the man, only that he was a bright mulatto and in the employ of a Mr. Pool near Auburn.

PEACE INSTITUTE.—The exercises of the above named excellent institution commenced yesterday morning with quite a large number of pupils for the first day. The success of this school under the superior management and control of Messrs. Burwell and Stevens has been unparalelled, a fact that speaks for itself of its great merits. The faculty of Peace Institute is not surpassed in capacity by any school in the South, while the executive ability of Mr. Burwell, the President, is equalled by that of but few men in this country. Peace Institute opens very propitiously for the coming session, and we shall reasonably expect to see its walls crowded before the end of the week. It deserves success and will have it, if there is anything in true merit.

BASE-BALL MATCH.—The Oxford Base-Ball Club, the "Yellow Jackets," and the "Stonewall Club" of Mr. Horner's school, had a game a few days since for the championship, with the following result:

FIRE ALARMS.—That our citizens may know the location of a fire when the alarm is sounded, we will republish the alarms ordered by the Mayor: One tap of Metropolitan Hall bell, for Eastern Ward; two for Middle Ward, and three for Western Ward. The bell will give a succession of a dozen or more taps after the one, two, or three taps.

IT WILL GROW.—Interest at 1½ per cent. a month has a way of climbing up on the principal that is truly alarming to the unfortunate that is necessarily compelled to go for it at those figures, even for a short time, but let it continue and how it will grow. Even at 6 per cent. per annum interest has been known to grow alarmingly. Yesterday we saw an old gentleman of this county holding in his hand an execution against him as surety to a note of $40 he had signed many years ago for a friend, who is now without effects and unable to pay it. The $40 note, with the interest added, made the debt $170.63. He looked at it over and over again, then wiping the perspiration from his forehead, truthfully remarked, "this interest, it will grow."

AN OVERSIGHT.—The following communication and reply explains itself:

"RALEIGH, September 1st.

Local Daily News:

DEAR NEWS—In your notice yesterday morning of the various cotton factors that bought and sold in this city, I observe you left out several firms in that line of business. * * * which I suppose was an oversight on your part.

Yours, &c., ——,

An oversght entirely, we assure you. We have a very defective memory, and where there are so many firms doing business, it is impossible to recollect all; we therefore referred to the advertising columns of the NEWS where we got the names.

DOMESTIC MARKET.—The market is very poorly supplied with both meats and vegetables at this season. We quote beef steaks 10@15; roast 10@15; briskets and stewing pieces 6@8; lamb 10@15; pork 10@13; spring chickens 20@30; eggs 25@30; butter 35@40; cabbage per head 5@15; Irish potatoes $1.25 per bushel; sweet potatoes $1.25 per bushel; green corn per dozen 20; lima beans 15 cents per quart; snap beans 20@25 per peck; beets 30c. per dozen; green apples $1@$1.25 per bushel; peaches 80@$1 per bushel; pears $1@$2.00 per bushel; fresh bunch fish 25@30; sturgeon 10c. per pound.

THE PERFUMES OF ARABY ECLIPSED.—Poets sing of the perfumes of Araby—so sweet, so fragrant, so delicious. They never visited Raleigh by moonlight, especially that portion of the city north of the capitol as far as the Raleigh & Gaston Railroad office, about the 1st of September, 1873. The fragrance arising from hog pens, sewers, &c., permeating the atmosphere of this region, far eclipses the fabled perfumes of Araby or any other by. The city night police, that is if they ever turn out after ten, would doubtless enjoy a visit to this delightfully perfumed region.

THE COUNTY ROADS.—There is universal complaint from our farmers in regard to the wretched condition of the county roads. The Fayetteville road from Raleigh to the "old Joe Hunter farm" is almost impassable. This is an important and much frequented thoroughfare, and there is no excuse for its bad condition. The crops have been "laid by" sufficiently long for the overseer to have put it in order, yet through his negligence the public are subjected to considerable inconvenience to say nothing of the danger to life, limb and property.

THE RALEIGH FEMALE SEMINARY.—The Fall session of the Raleigh Female Seminary commenced yesterday morning, under the most favorable auspices. Quite a number of pupils from other States, as well as North Carolina, have already reported, and during the present week many more are expected. The new buildings of the Seminary on Blount street are completed, and with new apparatus, new professors, and a new order of things generally, the Seminary will enter upon a new era of its existence, with new prospects of success. Success to the Seminary.

HARD AT IT.—The officers of the State have thus early commenced the preparation of their reports to the General Assembly, some of which being necessarily quite voluminous, requires a great deal of labor, mental and physical. In the Treasury office, the most important branch of the State department, all hands are busy posting up the State debt which will loom up to magnificent proportions. In a few days we hope to be able to give the exact figures of our indebtedness to date, that is if we have enough figures in our office for the purpose.

OUR NEW DRESS.—The NEWS having put on a new dress this morning, and entering upon the last half of the second year of its existence, "Ye Local" takes the opportunity to return thanks to the many kind friends who have heretofore assisted him in gathering information for his columns, and he hopes in the future to be enabled to add more interest to his department. He would bespeak for the NEWS a continuance of the same generous liberality which has been accorded it in the past by the citizens of Raleigh and the people of the whole State.

ATTENTION.—In front of the Saunders property on Hillsborough street is a pool of stagnant water, covered with green scum, offensive to the sense of smelling and deleterious to the health of the community. To this nuisance we call the attention of the Street Commissioner, because the pond was made by the filling up of the gutter opened by him; to the police, because it is made their duty to report nuisances; to the Mayor, that he will see that somebody removes the nuisance; to the Commissioners, that they may see to the Mayor.

THE WEATHER.—The following is the state of the weather yesterday, as reported at Branson's bookstore:

9 o'clock,	80

3 "	89
6 "	85

REMOVED.—The Messrs. Rosenbaum Bros., were yesterday busily engaged moving their dry goods establishment into the newly filled store-room, east side of Fayetteville and next door to Mr. Williams' book store. They will have a most handsome store.

A. G. LEE & MCMAKIN.—The attention of farmers is called to the announcement in our advertising columns that A. G. Lee & McMakin, two old established and well known business men, have formed a business co-partnership under the style above named for the purpose of carrying on a commission business in all its branches. Mr. McMakin, the former principal clerk of the house of A. G. Lee & Co., is a wholesale accession to the firm which was heretofore strong and popular. It is unnecessary for us to say anything in commendation of this firm. Our farmers know who they are and what they are. Remember the place. Exchange Place, Fisher building.

ADVERTISING DODGES.—The above is a subject that would give enough matter for more than a column. Advertising dodges are numerous and varied in character. We object to all as a whole, though some may be argued as being strictly legitimate. For instance, flaming hand bills posted on market carts or any where else, is somewhat legitimate, because the printer gets a fee for the hand bills; but any species of advertising where the printer is left out is an illegitimate dodge, and we shall expose the next young doctor that pays a negro twenty-five cents to go in church and call him out.

FREE LUNCH.—Clifton will open his new saloon, at 33½ Fayetteville street, this morning. He will have a free lunch at 12 o'clock, to which the public are invited to attend.

THE DAILY NEWS.

JORDAN STONE, Managing Editor.
SAM'L T. WILLIAMS, Political Editor.

TUESDAY.....SEPTEMBER 2, 1873.

The North Carolina *Gazette* has a good leader on the "Future of the South," which is to be followed by other editorials on the same subject.

Vegetable matter—the article in the last Asheville *Citizen* on that lot of fine tomatoes presented to the Editor by Mr. CHAPMAN.

The Newbern *Times* advocates the exemption from municipal taxation in that city of property or investments used in the establishment of factories.

The Milton *Chronicle* thinks the country, as big as it is, is only an infant in swaddling clothes. Uncle Sam should not relish the idea of being called childish. He is old enough to be in that second state of which SHAKSPEARE wrote.

BEAU HICKMAN, who has just been stricken with paralysis and taken to the hospital in Washington City, has been so long an adjunct of society at the Capital that the void caused by his death will not easily be filled. Who has not seen or heard of BEAU HICKMAN?

The Milton *Chronicle* says it plays "second fiddle to no man nor set of men." We do not not known whether or not father EVANS plays the fiddle at all—but one thing is certain, his son TOM, who writes for the Richmond *Enquirer*, can make the banjo ring.

The anecdote attributed by the Charlotte *Observer* to Col. HINTON was told by Col. WITHERS, in his eloquent speech at the great Conservative Mass Meeting at the Richmond Theatre. The address of Col HINTON at the Conservative Convention which nominated the State ticket, carried the Convention by storm.

"BILBRO" in the Battleboro *Advance* says "the revival of the interesting and soul-inspiring game of base-ball is a harbinger of better times coming, an olive branch of peace, a symbol of friendship and good-will which is destined to smooth rough places and make crooked ways straight."

We had heretofore been led to believe that base-ball was a great promoter of rough places.

The Kinston *Gazette*, speaking of "*Major*" (?) KAMES' Road, does not think it ought to be crooked so as to make a zigzag route, but has no objection to slight variations for the convenience of county towns. The *Gazette* has no doubt but that the Road will be built.

When the bill chartering the Road was before the Legislature, it was understood that its projectors were wealthy capitalists, who did not need any appropriations or contributions.

The ruse resorted to by SNOWDEN, an insurance clerk in Philadelphia, to defraud his employers, did not prove successful. Having concealed a sum of money, the telegram says the small amount of *seventy dollars*, he hit himself over the head with a dumb-bell, to create the impression that he had been beaten and robbed. The money was found secreted in a desk and the trick was seen through. The evidence against SNOWDEN led to his confession, and he is now in jail.

The Wilmington *Star* thinks the adjustment of relations between railroad companies and the farmers, will engage the early attention of the next Congress. That paper says Congress must pay some heed to the cry that goes up from the fields of the mighty Northwest. The *Star* adds:

"Ground down by a giant monopoly, the farmers are comparatively helpless. If the States cannot help them, can the National power render them assistance? That is now the question of questions."

The Recent Outrages in Western Carolina.

The Asheville *Pioneer* publishes a statement concerning the recent outrageous conduct of Federal officials in Western North Carolina. The *Pioneer* claims that the account furnished by the Asheville *Expositor* is a gross exaggeration. We copied the *Expositor's* account, and also a letter in the *Piedmont Press*, giving full particulars of the unlawful shooting of GARDNER by the DEAVER squad.

From Lieutenant MAST'S statement, published in the last *Expositor*, we learn that GARDNER, who was shot, was the owner of an illicit distillery, and was endeavoring to make his escape when he was fired upon by the soldiers.

It does not appear that the squad had any warrant for the arrest of GARDNER, nor indeed that he was under arrest at all. He seems to have been pressed into service, to show the officials the road to his own still, but misled them by taking them to the wrong road.

This fellow DEAVER, who is a Revenue officer, is said to be in the habit of arresting men illegally, and if Lieutenant Mast suffer himself to be controlled by such characters, he will surely get into trouble.

We doubt not that the principal blame in this matter rests upon DEAVER. We regret that an army officer has been placed in an embarrassing and unpleasant position by the officious and criminal conduct of one of the Revenue tribe.

In a New Dress.

The DAILY NEWS appears this morning in a new dress and slightly enlarged.

The kind support which our paper has received at the hands of the public has enabled us to make these improvements.

Our object to furnish a good news paper, inculcating sound political doctrines, has been so far successful as to greatly increase both our circulation and our advertising patronage.

We have no higher political ambition than to promote the interests of the Conservative party by an undeviating maintenance of its principles and a faithful adherence to its organization. We look to no higher reward than the approbation of our friends and the consciousness of having endeavored to perform our duty conscientiously, dispassionately, faithfully.

We have no promises to make for the future which are not guaranteed by our past course. While we do not claim to be infallible and have doubtless committed our full share of errors, both of omission and commission, yet it has been our honest endeavor to conduct a journal whose course would meet the approbation of all whose good opinion is worth deserving.

The words of encouragement we have from time to time received, and what is better than mere words, the handsome patronage that has been extended us, are gratifying evidences that the endeavor has not altogether failed.

The Excitement on Wall Street.

A man giving his name as LEONARD BROWN was arrested in New York on Saturday last, and if our Sunday's telegrams are to be believed, Wall street has been thrown into a state of considerable excitement, growing out of the developments which have been made since BROWN'S arrest.

It seems that BROWN is one of the shrewd operators referred to in our dispatches as being in league with certain skillful engrossers in New York and by whom the latter have have been employed to issue false certificates of stock on the New York Central, the Buffalo & Erie and perhaps other Railroads.

It has been known since the arrest of the forger NORTON, tha tforged Railroad bonds were upon the market, and the Wall street brokers had been repeatedly warned on the subject. No developments, however, of a positive character were brought to light until Saturday last, when discoveries were made which stirred to their depths the financial circles of New York City.

Before his arrest, BROWN, who is engaged in business on Broadway, sold to ALLCOTT & Co., brokers, a thousand dollar bond of the New York Central Railroad. This bond was genuine. A few days afterwards, BROWN attempted to negotiate a loan with the same firm on sixteen bonds of the same denomination with the genuine bond he had previously sold them. On examining very closely the sixteen bonds ALLCOTT & Co. pronounced them forgeries. One of the sixteen was found to be exactly the same number with the genuine bond which they had purchased from BROWN.

It soon leaked out that SHERMAN, a broker on Nassau Street, was also endeavoring to negotiate for LEONARD BROWN a loan of twenty-five thousand dollars, on thirty thousand dollars worth of bonds of the New York Central Road. Detectives were placed on the watch and BROWN was soon observed at SHERMAN'S office, giving unmistakable evidences of a perturbed mind. He was very importunate, but SHERMAN was too shrewd for him and refused to enter in the negotiation. He was then taken under arrest by the detectives, and eight thousand dollars worth of forged bonds were found upon his person. After locking him up, the detectives proceeded to investigate the matter farther, and succeeded in finding sixty-two similar bonds in the possession of two firms whose names have not been revealed. In the meantime, the rumor got afloat that over two hundred and fifty thousand dollars of the forged certificates had been put upon the market. The extent to which the forgery has been carried of course cannot be estimated, but it is believed that millions of the spurious bonds are ready to flood the market.

When the New York papers come to hand they will doubtless contain full accounts of these stupendous frauds, which seem to have shaken Wall Street to its centre and produced wild excitement in the financial market.

The Battleboro *Advance* thinks it might have been better if Mr. DAVIS had not spoken at the Montgomery White Sulphur Springs, but that paper pertinently asks:

"But then, is a citizen already deprived of the liberty and privileges of an American, to be debared the right to speak his honest sentiments, harmless and innocent at that, for fear some foul-mouthed slanderer will distort and misrepresent his language? Are Mr. DAVIS' lips to be sealed, because the acme of Radical usurpations and aggressions have not been fully consummated? Does any one believe that his silence will stop the slanders against the South, which the Radical party have lived on the last eight years? We think not. For if they cannot find one pretext to keep alive the passions of the war for political effect, they will invent another, so long as they can find success by such course."

The Wisconsin Democratic and Liberal Republican Committees have united in a call for a State Convention at Milwaukee, to bring out candidates in opposition to the Radical nominees for State officers. They passed a resolution calling upon all honest men, without regard to previous party lines, to consolidate in opposition to the corruptions and misrule of the party in power.

Black walnut stumps, brought from the interior of Virginia, are now shipped from Richmond to Northern cities, to be made into buttons. If Virginia should utilize all her resources in this style, she would soon be one of the wealthiest States of the Union. She has all the mineral wealth of Pennsylvania—all the agricultural fertility of New York—and more abundant water-power than Massachusetts.

The negro David Goggin, who was hanged last Friday at Franklin Court house, is said to have lived more than an hour suspended by the neck, and his heart was distinctly heard beating for more than three quarters of an hour after his fall. The hanging was barbarously managed.

A large portion of the rich lands of the Dismal Swamp might be made arable by deepening and widening the Dismal Swamp Canal.

SPECIAL NOTICES.

BILLOUS.—If you feel dull, drowsy, debilitated, despondent, have frequent headache, mouth tastes badly in morning, irregular appetite and tongue coated, you are suffering from Torpid Liver or "Billiousness." In many cases of "Liver Complaint" only a part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy. Sold by all first-class druggists.

How unnecessary the anguish many persons undergo from rheumatism, gout, neuralgia, toothache and earache. We say unnecessary because the application of Mexican Mustang Liniment to the affected part, or a few drops of it in the ears or tooth, affords instantaneous, and what is better, permanent relief. For cuts, wounds, bruises, swellings, and all injuries or diseases which require treatment ext rnally, this liniment is everywhere regarded as the most potent and reliable healing agent in existence. For all external injuries or ailments of horses and cattle, it is infallible.

His Honor, HENRY POTTER, late Judge of the United States Court for the District of North Carolina, gave the following as his opinion of Beckwith's Pills:

"For some ten or twelve years past I have been in the habit of using DR. BECKWITH'S ANTI-DYSPEPTIC PILLS in my family, and consider them so valuable a domestic medicine, that I never suffer my stock to be exhausted. I have used them with good effect in dyspeptic cases, under various modifications, and have found them efficacious in relieving from Sick Headache, and from all the usual symptoms of functional derangement of the viscera. As an apperient, they are excellent. I have long had the pleasure of an intimate acquaintance with the inventor of these Pills. He is a gentleman of talents, integrity and worth, and he ranks high in the science of medicine and the healing art.
H. POTTER."

Says the Wilmington *Star*: "The children of Samuel McNorton, of Black Rock, Bladen county, have three great-grandfathers, own brothers, one of them yet living; two great-grandmothers, own sisters; two grandmothers, own cousins and both named Lydia. Let the State beat this.

At the recent meeting of the stockholders of the Atlantic, Tennessee & Ohio R. R., at Statesville, Messrs. John Davidson, M. A. White, C. A. Carlton, T. J. Moore, D. A. Caldwell, H. P. Helper and Wm. Johnson were elected Directors. At a meeting of the Board of Directors Col. Wm. Johnston was elected President of the company for the ensuing year.

Says the Wilmington *Journal*:

"The indifference exhibited by the colored boys who are now in jail charged with the murder of little Willie Carter, is really sad to behold. It seems that they either cannot, or will not, realize their position and continue, to all appearances, as indifferent to their situation as they were when first arrested. David Martin, the most deeply implicated, is apparently the most careless of them all."

Says the Charlotte *Observer* of the 30th inst: "We have received a letter from Gen. Rufus Barringer, conveying the gratifying intelligence that the condition of his brother, the Hon. D. M. Barringer, (who is sojourning at the White Sulphur Springs in Virginia,) is greatly improved, and that hopes are now entertained of his recovery. This will be cheering news to the many friends of the Hon. Mr. Barringer throughout the State.

All work upon Mr. A. T. Stewart's vast hotel for women, on Fourth Avenue, has been suspended for some time. It is said the men refuse to work more than eight hours, while Mr. Stewart insists upon ten hours for a day's work, the same as he requires from those employed in his stores. The statement that Mr. Stewart took his physician to Europe with him, on account of his precarious health, is unfounded, as he can be seen in New York almost every day. A week or two ago he received a letfrom Mr. Stewart announcing that his health had much improved. He will return again before winter, and again give his attention to his vast business.—*New York Letter.*

It is strange that trifles will annoy some people. The case of Arthur Austin, aged eighteen, of Fall Grove, Tenn., reported by the Nashville papers, is an illustration. He got tired of seeing his drunken father snap caps at him with a loaded revolver, and, languidly picking up a shot gun, he put an end simultaneously to the annoyance and to the old man.

S. Wells Williams, the oldest inhabitant among the foreigners in China, and secretary of the United States legation, has just finished his dictionary of the Chinese language. It is the result of forty years labor, and contains explanations of 12,500 Chinese characters.

Captain Tyler, of Massachusetts, who has proved that Beast Butler stole his "contra-band-of-war" fame, seems to be of the opinion that Butler is not only an eminent criminal lawyer but an eminent criminal soldier.

The Pall Mall *Gazette* criticises Miss Kate Field's "Hap-hazzard" with contempt. Her representations of English life and institutions are absurd; her jokes and puns are feeble or miserable; her opinions rabid, and her style ridiculous.

Sir Samuel Baker asserts, with the concurrence of native merchants, that the Albert Nyanza is a simple continuation of the Tanganyiki, at the head of the Nile, in Africa. The merchants say that they passed through them in boats. Livingston directly contradicts this statement.

An English reviewer says there is more poetry written now in one year than was written during the whole of the eighteenth century, and dyspepsia has increased in the same proportion.

The affairs of the old Girard estate, at Philadelphia, are so prosperous that it is proposed to increase the facilities of Girard College, in order to take a much larger number of pupils.

It is rumored that Paul de Cassagnac, the noted French bully and journalist, is coming to this country on account of his present unpopularity in Paris.

The scalp of a "Modoc warrior, killed in the lava beds," recently came through the mail to a man at Brattleboro, Vt.

Story's statue of "Jerusalem" is becoming very famous, and seems to be more admired than his "Cleopatra."

Mme. Parepa-Rosea's singing this year will, it is said, be confined to a single song—'Sleep, baby, sleep."

CIRCUMVENTING A SWINDLER.—The other day a young man called at the Union Pacific general ticket office in Omaea, and requested a strictly private and confidential interview with the gentleman in charge. This being accorded him, he mysteriously folded back the lappel of his vest and showed a small metallic shield with the word "Detective" on it in raised letters. Then he gravely pointed to a pair of handcuffs which he carried in his inside pocket. He sxplained that he was in the employ of the Government Secret Service, and had started for a Western city on the line of the road. He had lost his wallet containing his money and his ticket. What should he do? Clearly there was but one way out. The company must pass him for justice could not be defrauded of her right. The man he was going for was "shoving the queer" up the road, and must be stopped. After consultation and some delay it was decided to issue the detective a pass, provided he would sign an order on the Secret Service Department for his pay. Of course he would, and he did. Then he took his pass and departed in a happy frame of mind. He had only left the office but a few minutes when a message went over the wires to Washington, and presently an answer came that no man of the name given was fn the employ of the Secret Service. He was then on a westward bound train, happy with his pass in his pocket, but a telegram was sent ahead to the next station, directing the conductor to take up that pass and collect full fare, which was done. The fellow was lucky to be allowed to get off so easily.

The railroad capital of the Southern and Western States is nineteen hundred millions of dollars, and the *Railway Monitor*, in the interest of this immense aggregation of money controlled by corporations proverbially monopolizing in character, says of the grange movement: "To make war upon these nineteen hundred millions of property must obviously defeat its own object, and to seem to do so could not fail to impoverish the South and injure the West." It further admonishes the grangers that there are 6,000 miles of new railroads to be completed this year, which will cost $182,700,000; and, in view of this fact, it asks the question: "Who is likely, in this country or abroad, to intrust this immense amount of money to railrord enterprises if such enterprises and such property are made unjust war upon?" This is a new phase of the case. It first assumes that the war of the farmers upon the railroad monopolit is an unjust one, and next content that the farmers must either submito the impositions of the past or be compelled to forgo the advantages of additional railroad facilities. Verily, the grangers have not a very cheery lookout.—*Philadelphia Star.*

The San Francisco *Bulletin*, of th 15th ult., says: Yesterday morning fishermen captured in the bay, and landed at Clay street wharf, a marine monster that has thus far defied identification, and at last accounts was only known as a monstrosity. The aggregated scientific knowledge of Oakland, has failed to discover the species of this peculiar fish. The fellow is nine feet ten inches in length, with the head of the shark and the body of the porpoise, and is furnished with a double row of ugly saw-like teeth. The mouth contained a piece of what is thought to be human flesh. The fish weighs about five hundred pounds. It is customary for the residents to bathe in the vicinity of the place where this agreeable animal was caught.

A philosophical Kentuckian who had but one shirt, and was lying in bed while the garment was drying on the clothes-line in the yard, was startled by an exclamation from his wife to the effect that "the calf had eaten it." "Well," said the Kentuckian, with a spirit worthy of a better cause—"well, them who has must lose."

A circular has been issued by the war department fixing the standard height for recruits in the United States army as follows: For artillery and infantry, five feet and four inches and upwards; for cavalry, not less than five feet five inches, and not more than five feet ten inches. This regulation is not applicable to musicians or to recruits for colored regiments.

A Scotch newspaper adds to the mystery of the Tichborne trial when it solemnly avers that the genuine Arthur Ortor lately passed through Clyde, on his way to England.

It is announced at Saratoga, that the Secretary of War is about to wed a widowed sister of General Hancock.

The tickets are divided into ten coupons or parts and have on their back the Scheme with a full explanation of the mode of drawing.

At this concert, which will be the grandest musical display ever witnessed in this country, the unprecedented sum of

DOUBLE ACTING
FORCE PUMPS,
KITCHEN BROS.,
(Successors to CAROLINA PUMP COMPANY, LOCATED IN RALEIGH.)

Are prepared to furnish at short notice the Kitchen Pumps of various sizes with Porcelain Cylinders which can't injure the water. This is a submerged deep well pump, now in use 2½ years without the expense of new packing. We make all sizes, capacity 3 to 150 gallons water per minute, working in every conceivable way and by the use of hose which can be attached in half a minute, these pumps at once become a hand engine of great power, throwing water on the roof of three story buildings, with one hand, and they will stand four to six men safely. We have not heard of one of them being overcome by fire, and yet they have been tested by over fifty fires, saving over $500,000 worth of property. For ordinary use children work them easily if set up by our printed directions, and if so set we warrant them 12 months. Our Double Suction and Force Globe Pumps, also invented by J. L. Kitchen is capable of being used as a Drive well pump and is well adapted to steamers and vessels of any class; one man can throw water on the roof of 3 story buildings. But it has a double ended lever and with four men is a very superior hand engine. The No. 2 Globe Pump is 12 inches in Diameter with 1¼ suction and 1¼ discharge pipe and throws 40 to 100 gallons per minute, according to speed. The No. 3 Globe, 7 inches in diameter, 1 inch suction and ¾ of an inch of discharge pipe, capable of 25 to 30 gallons per minute. These Globe Pumps we make of cast iron for common use, brass for salt water and block tin for the inside of houses for drinking water, they lift the water 25 feet perpendicular, and you can sit it in the house and draw water from springs or wells at great distances.

All kinds of steam and water pipes fitted at short notice; hose, hose-pipe, and couplings furnished here, &c.

Send for price list. The entire depth of wells with good references must accompany all orders.

Some few of these pumps have not given satisfaction but in each case it has been attributable to the maker and not the principle of the pump. We are now employing the best mechanics only, and are determined to have none other.

Address KITCHEN BROS.,
Raleigh, N. C.

PARTNER WANTED.—Being unable to fill the orders that we already have, because of the small capital invested in the business, we will take in partners with money, or go into a stock company if desired.

MR. J. L. KITCHEN—The pump you put in my well which is thirty-two feet deep, I have been using nearly two years; it has proven entirely satisfactory, and by attaching a hose which I got of you it becomes a local fire engine of invaluable service. For ordinary domestic purposes, the pump can be used by small children.

JOHN L. KITCHEN, Esq—
Dear Sir—I have had one of your Force Pumps in use for two years, and it has proved in every respect as you represented it and I would not be without it for twice the cost of it.
Yours respectfully,
R. A. WATSON.

GREENVILLE, April 19, 1872.

MR. J. L. KITCHEN—
Sir—I have been using one of your pumps driven from my steam engine, for supplying my tanks. I have used it continually for two years, and can confidently recommend it for any purpose where water is required. The pump is so constructed that it will last without getting out of order for years, and I have heard no complaint from any of your many pumps used in this locality for yard well pumps.
WM. S. BROADDUS.

John C. Gorman and W. C. Stronach, of Raleigh, give certificates stating that they have had the pump in use one and two years, are perfectly satisfied with it, and it has not cost them one cent for repairs.

Messrs. Wilson and Waddell, at Wilson's Mills, on the North Carolina Railroad, write that the No. 2 Globe Pump, with 150 feet of 1¼ inch hose, purchased from the Messrs. Kitchen to protect their mills and sash and blind factory against fire, is the best pump they have ever seen. They will buy another as soon as it can be made, for another well. Several parties have examined their pump and will buy others like them.

Says Patrick to Biddy, "Good mornin' my dear!
It's bit of a secret I've for yer ear;
It's yerself that is lukin' so charmin' the day,
That the heart in my breast is fast slipping away."
"'Tis you that kin flatther," Miss Biddy replies,
And throws him a glance from her merry blue eyes.

"Arrah, thin," cries Patrick, "'tis thinkin' ay you
That's makin' me heart sick, me darlint, that's thrue;
Sure I've waited a long while to tell ye this same,
And Biddy Maloney'll be such a foine name."
Cries Biddy, "Have done wid yer talkin', I pray;
Shure me heart's not me own for this many a day!

"I gave it away to a good lookin' boy,
Who thinks there is no one like Biddy Malloy;
So don't bother me, Pat; jist be aisy," says she.
"Indade, if ye'll let me, I will that," says he,
"It's a bit of a flirt that ye are on a sly;
I'll not throuble ye more, but I'll bid ye good-bye."

"Arrah, Patrick," cries Biddy, "an' where are ye goin'?
Shure it isn't the best of good manners ye's showin',
To lave me so suddint!" "Ouch, Biddy," cries Pat,
"You have knocked the cock feathers jist out ay me hat!"
"Come back, Pat," says she, "What for thin?" says he,
"Bekase I meant you all the time, sir!" says she.

The cast-off garments of dead officials are sought eagerly before the odor of death is out of them. The seekers might at least wait until the official apparel has been fumigated. It was Prince Hal, afterwards Henry V., who sat by his dying father's bedside, fingered longingly the golden circle of authority, as it lay upon the pillow, and finally placed the "polished perturbation" on his head. He afterwards, it is true, washed out his offence with modest tears, which is a sign of contrition not often shown by office-seekers. A multitude of applicants asked for the place of warden of the Illinois penitentiary before that functionary, who died from injuries received at Lemont, was fairly cold in his grave, and to avoid scandal the prison commissioners have been obliged to elect one of their number to the office, although it was less lucrative than their own.—*Missouri Democrat.*

Brigham Young preached a sermon lately, in which he said that the sisters thought they had a great deal to bear, but if they could stand in the shoes of their husbands they would know what trials and perplexities are. "Just fancy a man," said the prophet, "with two or three or half a dozen beloved wives catching him on one side, and before he can take half a dozen steps, more wives catching him on the other, with—'I want this;' 'I want that;' 'this is not right,' and so on; their minds just pulled to pieces. I say if the hair is spared on their heads, they may consider that they have got blessed good wives.'

Thomas Mustin, Esq., one of the oldest government clerks in Washington, died in that city Wednesday. He was born in Winchester, Va., on the 19th day of January, 1788, and was consequently over eighty-five years old. In 1811 he was appointed a cleark in the War Department, where he remained until the 5th of March, 1817, when he became chief clerk of the fifth auditor's office, a position he continued to hold until 1855, when he was retired in consequence of advancing age.

Among the abandoned industries of the South which will probably be taken up again is the manufacture of leather from alligator skins. Some of the Southern papers are urging the people in their vicinity to turn their attention to the matter, arguing that if it pays New Englanders to bring the skins from the South and tan them, it must pay to tan them where they are taken, bark and other material necessary being abundant in that region.

According to a letter from Khiva, published in the Moscow *Gazette*, the Khan has been placed under the control of his uncle; the Elvan Beg Mad Murat, the most notorious of all the haters of the Czar, has been arrested, and the Russians have seized the public treasury.

Men's lives should be like the days, more beautiful in the evening; or like the spring, aglow with promise; and the autumn, rich with golden sheaves, where good works and deeds have ripened on the field.

Andersonville, Texas, was visited by a preacher the other day for the first time, and the inhabitants would have got up a horse race for his entertainment if he had not stopped them.

A Connecticut editor avers that "there's an art, a genius like a poet's—born not made," which produces fried potatoes as delicious as a fairy's dream. He does not give the recipe.

Dooley's Yeast Powder cannot be excelled for making light, sweet Rolls, Biscuits, Waffles, Corn Bread, &c. It is always ready and reliable.
